This certificate is issued as verification that a sample(s), representative of production, was assessed and tested and found to comply with the IEC Standard list below and that the manufacturer's quality system, relating to the Ex products covered by this certificate, was assessed and found to comply with the IECEX Quality system requirements. This certificate is granted subject to the conditions as set out in IECEX Scheme Rules, IECEX 02 and Operational Documents as amended

STANDARDS :

The equipment and any acceptable variations to it specified in the schedule of this certificate and the identified documents, was found to comply with the following standards

[IEC 60079-0:2017](#) Explosive atmospheres - Part 0: Equipment - General requirements
Edition:7.0

[IEC 60079-1:2014](#) Explosive atmospheres - Part 1: Equipment protection by flameproof enclosures "d"
Edition:7.0

[IEC 60079-31:2013](#) Explosive atmospheres - Part 31: Equipment dust ignition protection by enclosure "t"
Edition:2

This Certificate **does not** indicate compliance with safety and performance requirements other than those expressly included in the Standards listed above.

TEST & ASSESSMENT REPORTS:

A sample(s) of the equipment listed has successfully met the examination and test requirements as recorded in:

Test Report:

[HR/FIDI/ExTR26.0021/00](#)

Quality Assessment Report:

[NO/DNV/QAR24.0016/01](#)

IECEX Certificate of Conformity

Certificate No.: **IECEX FIDI 26.0019X**

Page 3 of 3

Date of issue: 2026-06-30

Issue No: 0

EQUIPMENT:

Equipment and systems covered by this Certificate are as follows:

The device consists of flameproof enclosure containing an iPhone 17 smartphone. The enclosure is constructed from aluminium. On front and back side, the enclosure has glass windows for touch display, wireless charging and camera function. Buttons are made of aluminium and are kept in place by a flange on the inside. The device is protected by rubber bumpers on all four corners.

Rated data:

Battery supply 3.9 V DC

Ingress protection: IP6x

SPECIFIC CONDITIONS OF USE: YES as shown below:

- A repair of flameproof joints is not allowed according to IEC 60079-1 values.
- Fasteners shall only be replaced with identical ones. The minimum tensile strength must be 500 MPa.
- Smartphone is tested for low impact energy and shall not be exposed to high impact risk.
- The enclosure of Smartphone shall not be opened in hazardous area.
- Opening is not allowed by the user.
- Battery charging is only allowed outside hazardous area.
